Phone: 537-6141

The Mathematics program is designed to meet the needs of students desiring careers in business, industry, and teaching as well as preparation for advanced studies at the graduate level. Students majoring in mathematics may apply their technical strengths to second majors in many programs such as accounting, business administration, computer science, and science. The faculty of the Mathematics programs have been selected to provide quality instruction in all branches of mathematics.

ALL major and minor programs must have the approval of the student's advisor and the department faculty. All courses counting toward the major or minor must be completed with a grade of "C-" or better.
